

## CL102B Bluetooth Cabinet Lock

The BSI CL102B Bluetooth Cabinet Lock provides security and access control for a wide variety of cabinets and drawers, storage lockers and more. CL102B works in both Android and iOS smart phones.

- **Multiple Access**

CL102B has 3 access solutions, Bluetooth, Touch to open, and Key Override for your convenience

- **Bluetooth**

Download our APP from iOS or Android smart phone. Use your phone for keyless convenience and secure access

- **Mechanical Key Override**

It can also be unlocked with a mechanical key

### Application

#### Home Parcel Box

The modern e-commerce allows us to order anything from different websites, but we are always on duty during the delivery time, we worry about there might be a thief may steal our parcel when the deliveryman place it in front of our doors.

Parcel Lock Solution provides a safety and convenient parcel storage method, which allows deliveryman to open the parcel box by entering a one-time password into the mobile phone, and notice the consigner that the parcel has delivered. We can open our parcel box when we come home through a paired mobile phone.

#### Commercial Logistic Locker

Commercial Logistic Locker Solution provides a self-service parcel delivery service, customers can select any Locker location as their delivery address, and retrieve their orders at that location by entering a unique pick- up code on the mobile phone.

Customers can also return the orders through the Locker, the delivery man will retrieve the order back to the warehouse for inspection.
