

UNLOCK METHOD

PRODUCT FEATURES

- Lift the handle to lock the door, simpler and more convenient.
- Send temporary passwords remotely, so friends won't be left outside.
- Multiple incorrect attempts trigger alarm and automatic lockout.
- Immune to electromagnetic attacks, with strict protection.
- No need to worry about power outage, dual support for Type-C and key.

PRODUCT PARAMETERS

Product Name:	H11TB
Fingerprint Module:	Semiconductor Fingerprint
Material:	Aluminum+Steel
Surface Finish:	Powder Coating
Product Color:	Starry Sky Grey
Unlocking Methods:	Fingerprint, PW, Card, Key
Low Voltage Alarm:	Voice Prompt
Auxiliary Voltage:	DC 5V (2A) USB Interface
IC Card Quantity:	M1 Card *2
Security Emergency:	Mechanical Key *2
Normal Working Current:	Approx. 500uA
Standby Current:	Approx. 50uA
Battery:	4 x 1.5V Batteries
Card Sensing Distance:	0-10mm
Recognition Speed:	0.3 seconds
Lock Cylinder Level:	C-class Lock Cylinder
Working Temperature:	-25°C to 70°C
Working Humidity:	40%
